INTERNSHIP EXPERIENCE

Resource Data Management Asia (RDM Asia)

Software Developer & UI/UX Designer Intern (20 Weeks)

- Developed IoT monitoring dashboards and data visualization systems using Grafana, InfluxDB, Node-RED, and MQTT for clients including ASTRO, MRANTI, and MYDIN.
- Designed and developed frontend interfaces using React and Angular, while creating UI prototypes using Figma and Draw.io.
- Configured industrial IoT workflows involving MQTT, Modbus, and smart building monitoring systems.

ACADEMIC & PERSONAL PROJECTS

AskYourDatabase (AI Data Assistant) |

Python, Flask, OpenAI API, SQL, Plotly

- Developed an AI-powered system that converts natural language queries into SQL and generates interactive data visualizations.

Virtual Keyboard | Python, OpenCV, MediaPipe, cvzone

- Built a computer vision-based virtual keyboard using hand tracking and gesture recognition for real-time typing.

Smart Home Monitoring System | Node-RED, MQTT, InfluxDB, Grafana

- Developed an IoT monitoring system with real-time sensor data collection, automation, and dashboard visualization.

Sihat.AI – AI Healthcare Platform | AI, Claude API, JavaScript, HTML, CSS

- Developed an AI-powered healthcare platform featuring symptom analysis, medical image scanning, healthcare recommendations, and location-based hospital search.

Tailoring Management System | PHP, HTML, CSS, JavaScript, MySQL
